PROFESSIONAL SUMMARY

Results-driven Software Engineer and Computer Engineering graduate (2025) with hands-on experience across full-stack, frontend, and backend web development using Python, Django, JavaScript, and React.js. Skilled in building responsive interfaces, REST APIs, and database-driven backend systems, with a foundation in data structures, OOP, and SDLC practices. Experienced in Python automation, UI/UX design, and Agile collaboration. Certified in Generative AI (Google Cloud and Microsoft Azure). Seeking an entry-level Software Developer / Software Engineer role - Frontend, Backend, or Full Stack.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, SQL
- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design
- Backend Development: Python, Django, Django REST Framework, REST API Development, JWT Authentication, MySQL
- Core Concepts: Data Structures, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Debugging, Unit Testing
- UI/UX Design: Figma, Wireframing, Prototyping, User Flow Mapping, Visual Design, Usability Testing
- Tools & Platforms: Git, GitHub, VS Code, Agile/Scrum, Windows, Linux
- Cloud & AI: AWS Cloud, Generative AI Tools, Data Analytics
- Graphic Design: Adobe Photoshop, Adobe Illustrator, Canva

PROFESSIONAL EXPERIENCE

Python Full Stack Developer Trainee

Feb 2026 - Aug 2026

Login360 Software Training Institute, Chennai, India

- Built full-stack web applications using Python, Django, HTML5, CSS3, JavaScript, Bootstrap, and React.js.
- Developed backend functionality, REST APIs, and database-driven applications with Django and MySQL.
- Implemented version control and collaborative development workflows using Git and GitHub.
- Applied software development lifecycle (SDLC) methodology and coding best practices across project development.
- Contributed to real-world web application projects, strengthening frontend and backend development skills.

Python Programming Intern

May 2024 - Jun 2024

Tech Power Solutions, Vadapalani, Chennai, India

- Engineered Python automation scripts to streamline 5+ internal workflows, improving team operational efficiency by 15%.
- Diagnosed and resolved software defects across 3 production modules through systematic debugging and unit testing under senior developer supervision.
- Collaborated with the development team using Git version control, contributing to clean, maintainable codebases.
- Documented automation processes, reducing onboarding time for new team members.

PROJECTS

Startup Platform - Full Stack Web Application

Python, Django, Django REST Framework, React.js, JavaScript, MySQL, JWT

- Developed a skill-based opportunity platform connecting candidates and projects based on skills, experience, and capabilities, removing barriers related to education, age, or career gaps.
- Implemented JWT-based authentication and a Django REST Framework API layer to support a React.js frontend.

CRM Software Product - Web Application

HTML5, CSS3, JavaScript, Django, MySQL

- Developed a web-based CRM product covering sales, customer relationship management, and business operations.
- Built 11 functional modules including Leads, Contacts, Accounts, Deals, Sales, Activities, Reports, Analytics, Inventory, Support, and Projects.

Smart Farming with AI - Team Lead

Python, AI, Figma

- Led a 4-member team to design an AI-powered farming assistant supporting agricultural sustainability.
- Directed project planning, task delegation, and Figma-based UI prototyping for the team.

EDUCATION

Diploma in Computer Engineering

Jul 2025

Central Polytechnic College, Chennai, India | Aggregate: 72%

CERTIFICATIONS

- Python Programming - Tech Power Solutions
- Intro to Generative AI Studio - Google Cloud
- GenAI Powered Data Analytics Job Simulation - Forage / TATA
- AI Agent Development on Azure - Microsoft
